- **ICOC Campus Yo-Pro Ministry-** *ongoing*

- **ICOC Teens Trybe Choir-** *member*

ongoing

- **HACEY Health Initiative Advisory Board-** *Member*

11,12th grades and ongoing

This is a non-profit organization committed to supporting women, girls and young people in Nigeria to live a productive and healthy life.

As a member of the advisory board, I am charged with the responsibility of creating and executing ideas created to provide sustainable solutions and close the inequality gap that limits women and girls' access to health and economic empowerment.

- **Star Scholar Naija (SSN)- Contestant**

10th grade

I was a participant on the reality Tv show, Star Scholar Naija. It was a show that was created to showcase kids who were exceptionally talented and had strong academic standings. The selection process was rigorous. I passed through 2 different audition stages where I was required to showcase a talent of mine which was singing. The last stage was a computer-based test on Math, English and Essay Writing. I successfully passed all stages and was amongst the 16 participants of the show. Through this experience, I developed effective team building skills and communication skills. Most importantly, I learned how to develop my talent from popular Nigerian musicians, Ben Ogbeiwi and Yinka Davies.

- **MTN mPulse Spelling Bee Competition- Qualifier**

11th grade

- **ICOC Youth Scrabble and Chess Competition**

10th grade

- **National Youth Camp Event- Church youth camp**

- 1st position Scrabble Competiton-10th grade
- 2nd position 4x100m Girl's Relay Race-9th grade
- Best Junior Student in Spiritual formation-8th grade

Hobbies and Interests

I love singing and make sure I do it any chance I get.

I love listening to music. Listening to music is my safe space. It calms me and opens up my mind for new ideas to come in.

I enjoy watching movies or sitcoms at my spare time. I am a huge Marvel Cinematic Universe fan.

I enjoy reading as it gives me an insight to different places around the world and understand different cultures.

I am a problem solver. You can expect me to never leave a problem unsolved.

I enjoy research. I value most, information I worked hard to discover.

Additional Information

I intend on studying Economics with a minor in Computer Science in the higher institution.

The Nigerian economy has suffered for a long time now as a result of the misappropriation of resources by a few greedy hands. Poverty has taken reign and can be felt by even people of the middle class.

However, Nigeria is by far, the most blessed country on this earth. We are blessed with abundant resources; the only thing we need to do right now is use them in the most efficient ways possible.

I have developed a passion to make a change in the economy by transforming it with the help of adequate study and knowledge. I plan to foster international relationships and create and improve already existing policies that will drive this country to economic development.
